But neither should it be seen as our judgments about the world; how we see things isn't the same as and how we take them to be.. The work established Merleau-Ponty as the pre-eminent philosopher of the body, and is considered a major statement of French existentialism.. By defining human subject as being-in-the-world, he tends to make a symmetrical critique.

Human being is thus fundamentally related to space Following Merleau-Ponty's thought, we would like to investigate the issues regarding the relationship between Being and space in the contemporary architecture.
